Key Achievements

Played Stadium Events
Won 2 DJ competitions
Won Years Best
Director at Film and TV
School

Full-Stack Development graduate from Code Institute 2021. Highly creative and have experience of bringing projects from inception to completion in several fields such as video editing, photography and music. These industries require split second decisions in high pressure environments, decisive communication, a cool head and attention to detail. I have strong communication skills in a multi-international environment. Am ready to take the next step in my life and bring all of these qualities to my career in tech. Would love to be given the opportunity work at Ericsson and to grow with one of the world's most inspiring and innovative companies and develop technologies that can improve and impact the world we live in. Recently undertook a course in Ericssons own Erlang to prepare me for the role. References can be provided on request.
