I am a Junior Full-Stack Development graduate from Code Institute 2021. I have diverse and extensive experience in a number of fields from video editing to photography to music and the entertainment industry. I am a fantastic communicator, have amazing organisational skills, am a self-starter and can work solo as well as well as enjoying working collaboratively in team environments. I bring my previous wealth of experience to every project I work on. I am thorough, have excellent attention to detail, am effective and a positive and social person. I have always been interested in tech and am always looking at how to create a better user experience.
