PROFILE

Full Stack Development graduate from Code Institute. Proficient in HTML, CSS, Javascript ES6, Python. I have strong communication skills in a multinational environment, am positive, enthusiastic and love learning. Previously worked as a TV news video editor, photographer, photographers assistant and in the most recent years as a full time DJ. These industries require split second decisions in high pressure environments, decisive communication, a cool-head and attention to detail. I'm eager to gain entry into the tech industry into a team where I can bring all these skills together and grow and contribute.

EDUCATION

CODE INSTITUTE (ONLINE)

Diploma in Full Stack Software Development
